JUST TELL US. What kind You want? LONDON, Dec. 8.-A dispatch from Mad-ARTHUR B. SMITH, Main Yard, 4th and I sts. n.e. Branches: McArthur's, 701 12th st. n.w.; Mass. ave. and F n.e. rid to the Central News says that the police have made a raid upon houses suspected of being occupied by anarchists at Mesina De Rio Seco, a town 26 miles northwest of Valladolid, and secured a number of documents. It has been suspected, in fact known, by the police for a long time that the anarchist outrages in Spain had their origin in a conspiracy, but the authorities have never been able to get proof as to who Chas. E. Hodgkin, Expert Handler of Glass, the prime movers in the conspiracy are. Many arrests have been made in different parts of Spain, but the prisoners would never give evidence that would lead to the arrest of their principals.

V. Baldwin Johnson, The town of Mesina De Rio Seco is off the line of travel, and it appears now that taking advantage of its comparatively isolated position the anarchists sought refuge there and from there directed the movements of members of the gang in other places in Spain.

The discovery of the documents confirms —do you advertise judiciously? A handsome calendar is THE BEST standing "ad.." because it's consulted daily—our price only \$10 m. up. McQUEEN, Printer and Publisher, 1108-16 E n.w. the suspicions of the police that there is a widespread movement to spread the anarchist propaganda by means of dynamite and other outrages.

It is learned that the society at Mesina De Rio Seco had over eighty members, all of whom are sworn to secrecy by the most solemn oaths. Even the ritual employed in the initiation of members is in the hands of the authorities, and in it the anarchists call down upon themselves the vengeance of their fellow members if they betray in the slightest degree the confidence reposed in them. Some of the oaths in the ritual are blasphemous, but the police state that so far as they know not one of the many anarchists who have been arrested has ever violated his pledged word. The prisoners have lied to the authorities and led them on many a wild goose chase, but have not given them information that would lead to the arrest of the arch conspirators.

The police say that the raid at Mesina De Rio Seco was brought about by accident and not by any positive. It is learned that the society at Mesina De Rio Seco was brought about by accident and not by any positive information they had received. It is said that their attention was first attracted to the town by a sudden and heavy increase in the mail matter sent from there to different parts of Spain, and upon investigation it was learned that the persons to whom most of this mail matter was addressed were known to the police either as declared anarchists or as suspect-ed sympathizers with the anarchist move-

It was a comparatively easy task, once this fact was established, to find the haunts of the gang, but not so easy to arrest its members. The latter, in some unknown way, learned of the contemplated raid and when the police visited the suspected lodg-ings their occupants had fled. Is much more effective and business-like if typewritten—too expensive, you say?—Then note this: My "PATENT TYPEWRITER PROCESS" is a revelation in the correspondence world—Costs \$30 less per thousand than typewritten work and an expert can't tell the difference.
